

1) open the project in the visual studio 2022

2) In the connection string give Database1.mdf file path correctly according to the project path execution environment

3) make the changes as shown in the below code in **login.cs**:

```
using (SqlConnection conn = new SqlConnection(@"Data
Source=(LocalDB)\MSSQLLocalDB;AttachDbFilename=\\uol.le.ac.uk\root\student\home\gv58\De
esktop Files\instructorManager\instructorManager\Database1.mdf;Integrated Security=True"))
```

In the above code only change below line accordingly

```
AttachDbFilename=\\uol.le.ac.uk\root\student\home\ard30\Desktop
Files\instructorManager\instructorManager\Database1.mdf
```

5) After successfully running the project the username and password is

Username: gopinath

Password: varad
